Our mission is to educate at-risk youth, offering them the expanded advantages and the same opportunities as anyone else. It's our goal to assist youth to develop a positive self-image set realistic goals and benefit from first hand experiences in positive social relationships. We are a unique resource to help manage the many challenges that keep youth from being successful such as low self-esteem, poor personal health, family situations and poor school performance. Once we are able to reach their needs we can teach them life lessons, With that being said it is our goal and dream to give kids life changing experiences they can look back on and say :wow someone does care. Those come in both big and small packages. The TERF Project is to provide support to students and families who are most at-risk, to give students an emotional boost, to assist in their nutritional struggle sand to give families baskets of hope of basic hygiene items for their household.
